PROFESSIONAL EXPERIENCE

Cineplex Cinemas Park Royal and VIP | West Vancouver, BC   April 2019 – Aug 2019

Lounge Server, In-seat Server

- Part of the initial opening VIP team
- Served numerous tables while adhering to proper sanitation, safety and alchohol beverage control policies
- Delivered consistent, high quality guest service during regular and peak hours

The Jibe | Vancouver, BC   Jul 2017 – Sep 2017

Web Developer

- Worked on the continuation of a task application that pulls employee data through the Teamwork API
- Implemented a replication of Teamwork's Add New Task functionality
- Integrated and developed the prototype feature to log time on individual tasks
- Worked on overall task displays and task management using RESTful API

Agreement Express | Vancouver, BC   May 2016 – Dec 2016

Co-op Junior Software Developer

- Developed client-based Selenium test scripts written in Java using TestNG and maintained with Jenkins
- Provided thorough bi-weekly QA, reporting and logging any bugs against the core application
- Collaborated with professional services, business analysts, and project managers to build deliverables
- Wrote detailed documentation related to the SDLC of Agreement Express

PROJECTS

Potluck Event Planner | expo.io/@mobilepotluck/potluck-project   Oct 2017 – Dec 2017

- Worked on a cross-platform application that aims to solve food wastage problems by providing the ultimate event management experience
- Project was built from the ground up, consisting of 23 members divided into 4 main teams
- Implemented login and register functionalities
- Designed and developed pledge functionalities utilizing HTTP requests
- Managed token-based authentication (token storage, decoding JWT)

OVCMT Scheduling Application | schedule.ovcmt.com   Jan 2017 – Apr 2017

- Comprehensive web application that provides detailed course/instructor management and in-depth schedule generation through drag and drop features
- Full-stack responsibilities
- Wrote detailed documentation on project scope, stage plans, weekly status reports, and meetings
- Outlined and delivered approaches to risk management

Split – Expense Tracking (Now DivFit) | divfit.com   Mar 2017 – Apr 2017

- Split is a web application where users can track personal expenses individually or among friends
- Served as the team front-end lead, administering tasks and ensuring deadlines were met
- Designed and fleshed out user profile displays and functionalities
- Provided UI/UX tweaks and overall clean up towards the final sprint

VOLUNTEER EXPERIENCE

Vancouver Infectious Diseases Centre | Vancouver, BC | vidc.ca   Sep 2017 – Jan 2018

- Redesigned, rebuilt, and maintained VIDC's previously outdated WordPress Website
- Worked with technologies such as PHP, HTML5, CSS3, and Elementor
- Educated client on specific admin and guest use cases

EDUCATION

The University of British Columbia | Vancouver, BC   Sep 2019 – Present
Bachelor of Arts, Undeclared Major

- Applying for Major Computer Science in April 2020

British Columbia Institute of Technology | Burnaby, BC   Sep 2015 – Dec 2017
Computer Systems Technology Diploma

- Web and Mobile Option
- Graduated with Distinction
